## **ENGINEERING EXCELLENCE WINS EXCELLENCE AWARD**

*AIR CONDITIONING CONTRACTORS OF AMERICA HONORS  
HVACR CONTRACTOR WITH 2006 COMMERCIAL EXCELLENCE AWARD*

**CINCINNATI, OH** – Engineering Excellence, Inc. was recently presented the 2006 Air Conditioning Contractors of America Award for Excellence in Commercial Contracting during the annual Indoor Air Expo. The Cincinnati-based, Heating, Ventilation, Air Conditioning and Refrigeration (HVACR) contractor received the award at the Industry Leadership Breakfast in San Jose, CA on March 30.

“This award is the highest honor a commercial HVAC contractor can aspire to,” said Air Conditioning Contractors of America CEO Paul Stalknecht. “It’s always difficult to decide among the many entries because those who enter are the best of the best.” The award is given to an organization who demonstrates significant and exemplary achievement and success in managing their HVACR business and servicing their clients.

Engineering Excellence, Inc. won the coveted award because of the company’s strong customer communication skills and commitment to quality. They were nominated based on their demonstration of professionalism, trade involvement, creativity and community service. Engineering Excellence, Inc. was recognized for their specific ability to foresee and look towards the future to serve and anticipate the needs of their clients while incorporating creative problem solving to assure solutions. Their web-based software, Intellitrak Management System, provides real-time access to the status of any call, preventive maintenance, or information about their clients’ HVAC mechanical assets. They also have written and implemented safety procedures and provide ongoing technical and safety training.

Engineering Excellence, Inc. operates both nationally and regionally from its headquarters in Cincinnati, OH serving customers across the US and Canada. Engineering Excellence, Inc. provides preventive maintenance, emergency service, design/build retrofits and engineering consulting to multilocation retailers, industrial facilities, schools, non-profits, and owner-occupied buildings.
